PHILIPS
sense and simplicity

Highlights

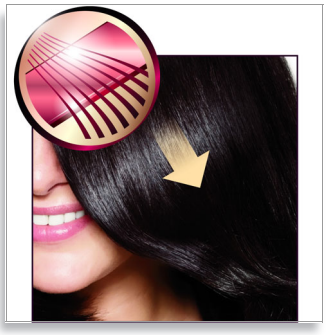
220°C variable temperature

Accurate control 220°C with variable temperature

Ionic Care

Give your hair an instant care with ionic conditoning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

SilkySmooth ceramic plates

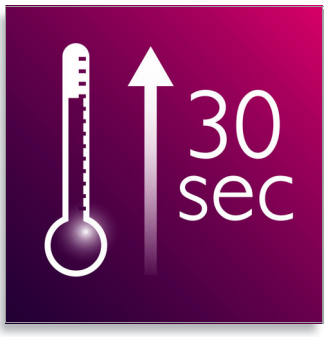


Ceramic is microscopically smooth and durable by nature, and is therefore one of the best materials for straightening plates. The SilkySmooth plates are carefully processed to enhance the gliding and caring properties of the ceramic, giving you perfect shiny hair.

Handle closing lock

The straightener has an closing lock mechanism. Located at the base of the straightener, this locks plates, making storage quick and easy and helping to protect the straightener from accidental damage.

Instant heat up



The straightener has a fast heat up time, being ready to use in 30 seconds

Specifications

Technical specifications

- Voltage: 110-240 V
- Heating time: 30s
